Research and teaching appointments

- NSERC Alliance -Mitacs Accelerate Postdoctoral Fellow
  Department of Biology, Carleton University, Canada
  1.2023 – Present
- Teaching and Research Fellow
  Department of Zoology, School of Natural Sciences.
  Trinity College Dublin, Dublin, Ireland
  5.2019 – 1.2023
- Research Assistant
  Intraspecific variation in mechanistic species distribution modelling,
  The University of Melbourne, Australia
  5.2018 – 12.2018
- Comparative Animal Physiology tutor (Second Year undergraduate)
  School of BioSciences, the University of Melbourne, Australia
  2017– 2018
- Ecology in Changing Environments tutor (Third Year undergraduate)
  School of BioSciences, the University of Melbourne, Australia
  2016– 2018
- Comparative Animal Physiology residential tutor,
  University College, the University of Melbourne, Australia
  2017– 2018
- First Year Chemistry residential tutor
  St John's College, the University of Queensland Australia
  8.2014 – 10.2014
- First Year Biology tutor (Science Learning Centre tutor),
  the Faculty of Science, the University of Queensland, Australia
  2012
- Peer Assisted Study Session leader: first year statistics
  The Peer Assisted Study Session office and the School of Mathematics and Physics, the University of Queensland Australia
  8.2012 – 10.2012
- Peer Assisted Study Session leader: first year ecology
  The Peer Assisted Study Session office, the University of Queensland Australia
  2011 – 2012

- Volunteer laboratory technician. Animal husbandry.
  White Evolutionary Physiology Laboratory, the University of Queensland
  3.2012 – 10.2012

Qualifications

Doctor of Philosophy (Science)
The University of Melbourne, Australia
Title: Predicting ectotherm life cycles under a variable climate: Physiological diversity of matchstick grasshopper eggs and their ecological and evolutionary implications
Repository access: http://hdl.handle.net/11343/225704
1.2015 – completed 14 Aug 2019, conferred 5.10.2020

Bachelor of Science (Honours Class I, University Medal)
The University of Queensland, Australia
Title: The effect of temperature on the relationship between metabolic rate and mass: Tests of the Metabolic Theory of Ecology
Conferred 6.12.2013

Bachelor of Science
The University of Queensland, Australia
Conferred 17.12.2012

Refereed journal articles

- **Kong JD**, Muzzatti MJ, Cullingham CI, Hoffmann V, Bertram SM and MacMillan HA. The insects as food and feed industry needs integrative solutions. Curr Res Insect Sci (2026), 9: 100127. DOI: 10.1016/j.cris.2026.100127.
- Payne NL+, **Kong JD**+, Jackson AL, Bates AE, Morley SA, Smith JA, Arnoldi J-F+: Heat limits scale with metabolism in ectothermic animals. J Anim Ecol (2025), 94:1307-1316. DOI: 10.1111/1365-2656.70042. +Authors contributed equally.
- **Kong JD**, Ritchie MW, Vadboncoeur É, MacMillan HA, Bertram SM: Growth, development, and life history of a mass-reared edible insect, Gryllodes sigillatus (Orthoptera: Gryllidae). J Econ Entomol (2025), 118:1093-1103, DOI: 10.1093/jee/toaf073.
- **Kong JD**, Vadboncoeur É, Bertram SM, MacMillan HA: Temperature-dependence of life history in an edible cricket: Implications for optimising mass-rearing. Curr Res Insect Sci (2025), 7:100109. DOI: 10.1016/j.cris.2025.100109.

Research highlights

ORCID
Google scholar
H-index: 9 (GS)
Total citations: 355

- High attention papers in the top 5% of all research outputs scored by Altmetric:
  - **Science**: 22 News outlets, 1 blog, 86 tweeters. 1 Wikipedia page. Altmetric score: 223. Citations: 27
  - **Royal Society Open Science**: 90 tweeters. Altmetric score: 61. Citations: 22
  - **Nature Climate Change**: 10 News outlets. Altmetric score: 95. Citations: 45
- Ecology/evolution studies in some of the best journals in their respective disciplines, and in the top 25% of all research outputs scored by Altmetric:
  - **Methods in Ecology and Evolution**. Altmetric score: 20. Citations: 18
  - **Journal of Experimental Biology**. Altmetric score: 20. Citations: 24
  - **Philosophical Transactions of the Royal Society B**. Altmetric score: 8. Citations: 35
  - **Current Opinion in Insect Science**. Altmetric score: 6. Citations: 98

I have peer reviewed for:

- Global Change Biology
- Entomologia Experimentalis et Applicata
- Methods in Ecology and Evolution
- Nature Ecology and Evolution
- Ecological Entomology
- The Canadian Entomologist
- Environmental Entomology
- Journal of Fish Biology
- Current Zoology
- Scientific Reports
- Conservation Physiology
- American Naturalist
- Functional Ecology
- Physiological Entomology
- Journal of Evolutionary Biology
- Journal of Experimental Biology
- Journal of Insects as Food and Feed
- Journal of Applied Entomology
- Journal of Insect Physiology

Research grants or awards

TOTAL: $13 750 AUD :australia: and **$38 905 CAD** :canada:

- **$1 350 CAD**. 2024 Winner. Carleton University Postdoctoral Fellow Award
- **$22 500 CAD**. 2025 NSERC Alliance-Mitacs Accelerate Internship
- **$100 CAD**. 4.2024 Canadian Society of Zoologists Travel Grant
- **$15 000 CAD**. 2024 NSERC Alliance-Mitacs Accelerate Internship
- **$2 500 AUD**. 6.2018 Holsworth Wildlife Research Endowment
  Equity Trustees Charitable Foundation & the Ecological Society of Australia
- **$300 AUD**. 12.2018 2nd runner up student presentation
  Australian and New Zealand Society for Comparative Physiology and Biochemistry, Australia
- **$500 AUD**. 8.2018 Student Travel Grant
  To attend the 2018 Australian Entomological Society Annual Meeting, Australia

- **$1 500 AUD**. 2018 Science Abroad Travelling Scholarship (SATS) Faculty of Science, the University of Melbourne, Australia
- **$950 AUD**. 8.2018 FH Drummond Travel Award
  School of BioSciences, the University of Melbourne, Australia
- **$1 500 AUD**. 2016 School of BioSciences Research Higher Degree Financial Support for Research or Conference Travel
  The University of Melbourne, Australia
- **$6 000 AUD**. 2015 Holsworth Wildlife Research Endowment
  Equity Trustees Charitable Foundation
- **$500 AUD**. 2013 Three Minute Thesis (3MT) People's Choice Winner
  The University of Queensland Undergraduate Research Conference

Other Awards and Scholarships

- 2024 Finalist. President's Award, Canadian Society of Zoologists Annual Meeting
- **$13 541 AUD**. 2018 Research Training Program Scholarship, Australian Government
- **$26 682 AUD**. 2017 Research Training Program Scholarship, Australian Government
- **$200 AUD**. 2017 Runners-up in the Sustainability Prize photo competition, Graduate Student Association, the University of Melbourne
- **$26 288 AUD**. 2016 Australian Postgraduate Award, Australian Government
- **$25 849 AUD**. 2015 Australian Postgraduate Award, Australian Government
- 2014 University Medal 2013, the University of Queensland, Australia
- 2010 – 2013 Dean's Commendation for Academic Excellence (formerly Dean's Commendation for High Achievement), the Faculty of Science, the University of Queensland, Australia

---

Teaching contributions and course development

I have developed several graduate level tutorials or teaching material for journal or coding clubs that I provide freely through my website or through my GitHub.

Trinity College Dublin implements a 4 year degree program with 2 years of general subjects (e.g. biological sciences stream, ~250 students) and 2 years towards a specific major (e.g. zoology, ~ 35 students). Total of 60 credits per year. Degree consists of mandatory core subjects and electives.

2022

- Lecturer & course development: Statistics and computation for biologists (BYU22S01). 2nd year undergraduate core subject, 5 credits. Trinity College Dublin. Developed course lectures and practical material, implemented novel R packages for interactive teaching within the R environment (learnr package). In-person lectures & practicals.
- Lecturer & course development: Animal Diversity I (ZOU33003). 3rd year undergraduate, core zoology major subject, 5 credits. Trinity College Dublin. Developed course lectures and practical material. In-person lectures & practicals.
- Lecturer & course development: Animal Diversity II (ZOU33004). 3rd year undergraduate, core zoology major subject, 5 credits. Trinity College Dublin. Developed course lectures and practical material. In-person lectures & practicals.
- Contributing staff: Marine Biology (ZOU33000). 3rd year undergraduate, core zoology major subject, 5 credits. Trinity College Dublin. Resident field course based in Killary Fjord, Ireland.

2021

- Lecturer & course development: Statistics and computation for biologists (BYU22S01). 2nd year undergraduate core subject, 5 credits. Trinity College Dublin. Developed course lectures and practical material, implemented novel R packages for interactive teaching within the R environment (learnr package). Hybrid delivery: remote and in-person lectures & remote and in-person practicals.
- Lecturer & course development: Animal Diversity I (ZOU33003). 3rd year undergraduate, core zoology major subject, 5 credits. Trinity College Dublin. Developed course lectures and practical material. Hybrid delivery: remote lectures & in-person practicals.
- Lecturer & course development: Animal Diversity II (ZOU33004). 3rd year undergraduate, core zoology major subject, 5 credits. Trinity College Dublin. Developed course lectures and practical material. Hybrid delivery: remote lectures & in-person practicals.

2020

- Lecturer (Module co-ordinator) & course development: Statistics and computation for biologists (BYU22S01). 2nd year undergraduate. Trinity College Dublin. Developed course lectures and practical material, implemented reproducible workflow for online exams. Adapted for remote delivery.
- Lecturer & course development: Animal Diversity I (ZOU33003). 3rd year undergraduate. Trinity College Dublin. Developed course lectures and practical material. Module co-coordinator. Adapted for remote delivery.
- Lecturer & course development: Animal Diversity II (ZOU33004). 3rd year undergraduate. Trinity College Dublin. Developed course lectures and practical material. Adapted for remote delivery.

2019

- Lecturer & course development: Statistics and computation for biologists (BYU22S01). 2nd year undergraduate. Trinity College Dublin. Developed course lectures and practical material, implemented reproducible workflow for online exams.
- Lecturer & course development: Animal Diversity I (ZOU33003). 3rd year undergraduate. Trinity College Dublin. Developed course lectures and practical material. Acting module co-coordinator.
- Lecturer & course development: Animal Diversity II (ZOU33004). 3rd year undergraduate. Trinity College Dublin. Developed course lectures and practical material.

2017

- Guest lecturer: 2nd year Comparative Animal Physiology, University of Melbourne
- Course development: 2nd year Biostatistics, University of Melbourne. Evaluated course context and provided feedback.

2016

- Guest lecturer: 2nd year Comparative Animal Physiology, University of Melbourne

---

Conference presentations and invited talks

Talks presented by Jacinta unless otherwise stated.

2026

- House crickets tolerate water loss during desiccation. Ottawa-Carleton Institute of Biology Symposium, Ottawa, Canada. 28th April 2026
- Crickets maintain haemolymph volume and ion balance during desiccation. Canadian Society of Zoologists Annual Meeting, Ottawa, Canada. 6th May 2026.

2025

- Grinding feed does not affect growth, development and survival in individually and group reared edible crickets. Canadian Society of Zoologists Annual Meeting, Waterloo-Kitchner, Ontario, Canada. 15th May 2025
- Temperature-dependence of life history in an edible cricket: Implications for optimising mass-rearing. International Symposium on the Environmental Physiology of Ectotherms and Plants, Vancouver, British Columbia, Canada. 17th July 2025

2024

- The effects of diet and temperature on *Gryllodes sigillatus* life history. Presentation to Aspire Food Group, BugMars, and Western University. 23rd January 2024
- Leveraging physiology for insect mass rearing: effects of diet and temperature on cricket performance. Canadian Society of Zoologists Annual Meeting, Moncton, New Brunswick, Canada
- Grinding feed does not affect growth, development and survival in individually and group reared edible crickets. International Congress of Entomology, Kyoto, Japan. Poster
- Grinding feed does not affect growth, development and survival in individually and group reared edible crickets. Entomological Society of Canada Annual Meeting, Quebec City, Quebec, Canada
- The effect of temperature on *Gryllodes sigillatus* life history. Presentation to Aspire Food Group. 26th August 2024
- The effect of laybox location on pinhead emergence. Presentation to Aspire Food Group and Cornell University. 16th October 2024
- Species Traits and Distributions: Past, Present & Future. Department of Biology Seminar Series, Carleton University, Canada. Link
- Building bigger, better bugs for insect protein. Carleton University Postdoctoral Fellow Award 2024, 10th December 2024, Carleton University, Ottawa, Canada. Link

2023

- Leveraging physiology for insect mass rearing: effects of diet and temperature on cricket performance. Australian and New Zealand Society for Comparative Physiology and Biochemistry Conference, University of Queensland Gatton Campus, QLD, Australia

2022

- Heating tolerance of ectotherms is explained by temperature's non-linear influence on biological rates^. Society for Experimental Biology Annual Meeting, Montpellier, France. ^presented by Nicholas Payne
- Can we improve our ability to understand ectotherm thermal tolerance? Society for Experimental Biology Animal Biology Early Career Researcher Symposium. 3-7th October. Tvärminne Zoological Station, Finland.
- Can we improve our ability to identify climate vulnerability in ectotherm life cycles? British Ecological Society Annual Meeting, Edinburgh, UK

2021

- Energetic turnover explains the inflexibility of upper thermal tolerances in ectotherms. Irish Ecological Association Meeting, University College Cork, Ireland (online)
- Ectotherm heat limits track biological rates. British Ecological Society Macroecology Special Interest Group meeting (online)
- Thermal adaptation and plasticity of egg development generates latitudinal patterns in insect life cycles under seasonal climates. Society for Experimental Biology Annual Meeting (online)

2020

- Grasshoppers have cute faces. Department of Botany Seminar Series, Trinity College Dublin, Ireland. 29th January

2019

- Detangling the complex problem of climate adaptation of insects living in a seasonal world. Victorian Biodiversity Conference, University of Melbourne, VIC, Australia
- Local adaptation of thermal responses generates voltinism patterns of matchstick grasshoppers, *Warramaba* (Orthoptera: Morabidae), along a latitudinal gradient. British Ecological Society Annual Meeting, Belfast, N. Ireland, UK

2018

- Selection against overwintering shapes thermal performance curves for development. Australian and New Zealand Society for Comparative Physiology and Biochemistry Conference, Monash University, VIC, Australia
- Environmental and developmental drivers at the egg stage generate divergent life cycles in wingless arid zone grasshoppers (Orthoptera: *Warramaba*). Australian Entomological Society Conference, Alice Springs, N.T., Australia
- The egg stage drives life cycle adaptation to climate in the widely distributed matchstick grasshoppers (*Vandiemenella* and *Warramaba*, Orthoptera: Morabidae). 'The height, breadth and depth of physiological diversity: variation across latitudinal, altitudinal and depth gradients' Animal Biology Satellite Meeting, Florence, Italy, Society for Experimental Biology
- Microclimate-driven mechanistic models to examine clinal adaptation at the egg stage in a parthenogenetic grasshopper. Society for Experimental Biology Annual Conference, Florence, Italy

2017

- Does variation in egg developmental responses to temperature generate divergent life-cycles in a genus of flightless grasshoppers (*Warramaba* spp.)? School of BioSciences Postgraduate Symposium, the University of Melbourne, Parkville, Australia
- Egg development drives life cycles in *Warramaba* spp. grasshoppers. Australian and New Zealand Society for Comparative Physiology and Biochemistry Conference, Daintree Rainforest Observatory, QLD, Australia
- Mechanistic models for understanding and predicting insect responses to climate change. Australian Entomological Society Conference, Terrigal, N.S.W., Australia

2016

- Predicting insect egg development under variable climates. School of BioSciences Postgraduate Symposium, the University of Melbourne, Parkville, Australia

- Predicting egg development in the parthenogenetic grasshopper *Warramaba virgo* (Orthoptera: Morabidae). Australian and New Zealand Society for Comparative Physiology and Biochemistry Conference, Western Sydney University, N.S.W., Australia

2015

- Novel applications of thermocyclers for high-throughput phenotyping of invertebrate thermal response. Australian and New Zealand Society for Comparative Physiology and Biochemistry Conference, Fowler's Gap, N.S.W., Australia

2013

- Every Breath You Take Links Metabolism and Ecology
- Three Minute Thesis, Undergraduate Research Conference, the University of Queensland, Australia The University of Queensland
- Every Breath You Take Links Metabolism and Ecology. Summer Research Introduction Session 2013, invited by the Office of Undergraduate Education, the University of Queensland, Australia
- Flying foxes and you: Exploring the exposure of society to so-called "rats with wings"
- Bachelor of Science Welcome Day, invited by the Faculty of Science, the University of Queensland, Australia

2012

- Flying foxes and you: Exploring the exposure of society to so-called "rats with wings"
- Advanced Study Program in Science Student Conference, the University of Queensland, Australia

2011

- Female-biased dispersal in the Eastern Water Dragon (*Physignathus lesueurii lesueurii*)
- Advanced Study Program in Science Student Conference, the University of Queensland, Australia

---

Professional service and affiliations

- 2024 – Present Member: Canadian Society of Zoologists (CSZ)
- 2024 Member: Entomological Society of Canada (ESC)
- 2023 – Present Member: Society for Comparative and Integrative Biology (SICB)
- 2015 – Present Member: Australian and New Zealand Society for Comparative Physiology and Biochemistry (ANZSCPB)
- 2019 – 2023 Member: British Ecological Society (BES) & Irish Ecological Association (IEA)
- 2018 Member: Royal Society of Victoria (RSV)
- 2017 – Present Member: Society for Experimental Biology (SEB)
- 2015 – 2020 Member: Australian Entomological Society (AES)
- 2019 – 2020 Member: European Society for Evolutionary Biology (ESEB)
- 2017 – 2018 President, BioSciences Postgraduate Society, the University of Melbourne
- 2016 – 2017 Vice President, BioSciences Postgraduate Society, the University of Melbourne

Symposiums

- Co-organiser of the Society for Experimental Biology Animal Biology Early Career Researcher Symposium. 3-7th October 2022. Tvärminne Zoological Station, Finland.
- Organiser of symposium "Leveraging insect physiology for mass rearing practice" for the 2024 International Congress of Entomology (ICE). 25-30 August 2024. Kyoto, Japan
- Co-organiser of symposium "Interdisciplinary advances in insect mass rearing in Canada" for the 2024 Entomological Society of Canada. 21-23 October 2024. Quebec City, Canada

I have mentored 3 undergraduate students, and 4 PhD students.

Professional development qualifications

- 17 October 2025 Mitacs Course: Enhance your communication skills
- 14 Feb 2024 Mitacs Course: Applying the principles of sound leadership and team building
- 29 Jan 2024 Mitacs Course: High performing leadership and teams
- 26 Jan 2021 Epigeum Research Integrity Course
- 19 Mar 2021 Dynamic Energy Budget Course (online)

Community outreach and communication

2026

- Poster judge. Ottawa-Carleton Institute of Biology Symposium, Ottawa, Canada. 28 April 2026
- Local organizing committee and volunteer for the Canadian Society of Zoologists Annual Meeting, Ottawa, Canada. 4-8 May 2026.

2025

- Session chair and judge. Ontario Biology Day 22nd March. Carleton University, Canada

2024

- Profiled on the Canadian Society for Zoologists website for the Presidents' Award. Link

2023

- Interview on CBC Radio about effects of hot weather on insects. 2nd October.

2022

- **Kong JD**, Chown SL, Hoffmann AA and Kearney MR. (2022) Reply to Adamo: No Signs of Pathogen Susceptibility in Warramaba virgo. Science. eLetter. DOI: 10.1126/science.abm1072.

- Conference Organiser. Society for Experimental Biology Animal Biology Early Career Researcher Symposium. 3-7th October. Tvärminne Zoological Station, Finland.

2021

- Contributor to the Trinity Walton Club STEM@Universi-TY program, Trinity College Dublin (2021-present)
- Mentor for Irish Ecological Association mentoring meeting. 7th January
- The Socio-Economic Theory of Animal Abundance. April Fools blog post for EcoEvo@TCD. 1st April

2020

- Profiled on Humans of BioSciences by the School of BioSciences, the University of Melbourne, Australia. Website & Twitter. 17th December
- Guest interview with Newstalk radio, Ireland. 14th January

2019

- Mentor for BES Women in Science Mentoring Program
- Home and Away: 3 part blog series for EcoEvo@TCD
  - Home and Away: Would a Rosella by any other name smell as sweet (online 1 Nov)
  - Home and Away: Monotreme mistakes (online 22 Nov)
  - Home and Away: Australian expats (online 12 Dec)
- Victorian Biodiversity Conference Volunteer, Melbourne, Australia

2018

- Big Ideas in Macrophysiology. Report on the 2018 Animal Biology Satellite Meeting, Florence Italy. Society for Experimental Biology Magazine
- The University of Melbourne Open Day Volunteer, the University of Melbourne, Melbourne, Australia

2017

- The University of Melbourne Open Day Volunteer, the University of Melbourne, Melbourne, Australia
- Session Chair, BioSciences Postgrad Symposium, the University of Melbourne, Australia
- Victorian Biodiversity Conference Volunteer, Melbourne, Australia
- Blog post for Graduate Student Association, University of Melbourne on the biodiversity photo competition

2016

- Session Chair, BioSciences Postgrad Symposium, the University of Melbourne, Australia
- Novel applications of thermocyclers for characterising invertebrate thermal responses. Video for Methods in Ecology and Evolution

2015

- The University of Melbourne Open Day Volunteer, the University of Melbourne, Melbourne, Australia

- The Real Life of a Research Student. Science Undergraduate Research Journal (SURJ), Issue 2. The University of Queensland, Australia
- Jacinta on Zoology & Research. Interview with BITE BACK, Black Dog Institute, Australia. 31st August. Link likely broken

2014

- Brisbane Open House Volunteer, Brisbane Open House, Brisbane, Australia
- Student Chaperone for the International Baccalaureate World Student Conference, the University of Queensland, Australia
- Moreton Bay Research Station Open Day Assistant, Moreton Bay Research Station, Brisbane, Australia

2013

- Science Mentor to Science Undergraduate Students, appointed by the Faculty of Science, the University of Queensland, Australia

2012

- Moreton Bay Research Station Open Day Assistant, Moreton Bay Research Station, Brisbane, Australia
